Z-WAVE EUROPE

WE MAKE LIFE BETTER

Z-WAVE EUROPE

WE MAKE LIFE BETTER

Z-Wave Europe based in Hohenstein-Ernstthal pioneered in importing the first Z-Wave products to Europe as a Value Added Resellers in 2008. Since then Z-Wave Europe has been the leading Value Added Distributor for Z-Wave and Zigbee based wireless home automation controls facing high and steady growth in its business.

Since November 2020, Z-Wave Europe has been cooperating under the brand Aeotec with the Samsung Electronics subsidiary "SmartThings", the industry leader in IoT technology and home connectivity. The open platform brings devices, developers and services together to create one of the largest ecosystems. The Aeotec Smart Home Hub is the first "Works as a SmartThings Hub" that can integrate SmartThings compatible devices via Z-Wave, Zigbee or Wi-Fi.

We make life better. Because we help you to find the right products and services to transform homes, flats and offices into smart homes. In doing so, we support our customers by expediting and simplifying all business processes. Through outstanding logistical and technical support, we increase our success in the market.

CORRIDOR

GOING OUT

Do you feel the same way? Before leaving your home, you run through all the rooms, turn off the heating, check that all the windows are closed and switch off the lights. Thanks to your Smart Home, you no longer need to do all this, because it now happens automatically. Using the geofencing function of your smartphone, your Smart Home System recognises when the last occupant has left the flat or house and turns down the heating, switches off the lights in all rooms and puts electrical devices into standby mode to save energy. From the moment the occupant leaves the home, all window and door sensors as well as the motion detector are activated. In addition, the smart door lock locks the door and the robot vacuum also starts its job.

Used for this scenario:

- Aeotec Smart Home Hub
- Aeotec Motion Sensor
- Aeotec WallMote Quad
- Zigbee lights or flush-mounted relay
- FIBARO Wall Plug
- Nuki or alternative smart door lock
- Smartphone
- Samsung Robot Vacuum Cleaner
- Door and window sensor

CORRIDOR

COMING HOME

When you come home, your smart home is waiting for you. You have already been announced via the geofencing function of your smartphone, so the light in the driveway switches on, the yard gate or garage door opens and the door lock unlocks. If you like, your favourite music is already playing in all rooms via Multiroom mode and the lights in the corridor are switched on. Of course, the heating also heats to a comfortable temperature.

Used for this scenario:

- Aeotec Smart Home Hub
- Aeotec Motion Sensor
- Aeotec WallMote Quad
- Zigbee lights or flush-mounted relay
- FIBARO Wall Plug
- Nuki or alternative smart door lock
- Smartphone
