Z-WAVE EUROPE
WE MAKE LIFE BETTER

Z-Wave Europe based in Hohenstein-Ernstthal pioneered in importing the first Z-Wave products to Europe as a Value Added Resellers in 2008. Since then Z-Wave Europe has been the leading Value Added Distributor for Z-Wave and Zigbee based wireless home automation controls facing high and steady growth in its business.

Since November 2020, Z-Wave Europe has been cooperating under the brand Aeotec with the Samsung Electronics subsidiary "SmartThings", the industry leader in IoT technology and home connectivity. The open platform brings devices, developers and services together to create one of the largest ecosystems. The Aeotec Smart Home Hub is the first "Works as a SmartThings Hub" that can integrate SmartThings compatible devices via Z-Wave, Zigbee or Wi-Fi.

We make life better. Because we help you to find the right products and services to transform homes, flats and offices into smart homes. In doing so, we support our customers by expediting and simplifying all business processes. Through outstanding logistical and technical support, we increase our success in the market.

UTILITY ROOM

WASHING AND CLEANING ROUTINE

Time for housework? From now on, this will also start with a touch of an button, so that the vacuum robot begins its work and the washing machine starts.

Used for this scenario:

- Aeotec Smart Home Hub
- Aeotec Button
- Samsung Robot Vacuum
- Samsung Washing Machine

UTILITY ROOM

LAUNDRY IS DONE

Nobody lies more shamelessly than the washing machine that promises to be ready in 10 minutes. To avoid having to check unnecessarily whether the washing machine is really ready, you can simply be notified conveniently by push notification when the laundry is ready. Do you not want your damp laundry to stay in the washing machine too long and to be ready on time at the end of the day? Use the "Laundry Planner" in the SmartThings App and conveniently set the end time for the laundry process.

Used for this scenario:

- Samsung Washing Machine
- Smartphone or Tablet
- Aeotec Smart Home Hub

UTILITY ROOM

SAFELY STORED

In the kitchen are dangerous objects for children such as knives, scissors or even detergents. Parents of young children know about these dangers, but not all of them can be easily eliminated. With SmartThings devices, they can keep them safer. Get notified via push notification on your smartphone or tablet when the kitchen cupboard where the cleaning products are stored is opened.

Used for this scenario:

- Aeotec SmartThings Hub
- Aeotec Multipurpose Sensor
